## Editorial.

Clothed in new attire, under a new management, and organized upon a new system, the OUTLOOK for 1902-03 makes its appearance.

With the 5th volume, it is the desire of the Editors to enter upon a new period in the history of the publication.

The OUTLOOK of old, with its familiar cover and somewhat meagre contents, has passed away. In its place comes the present paper, changed—and it is hoped, improved—in every respect, except its name.

Last year, as is well known, the character of the OUTLOOK failed to satisfy the demands of the students, and, in consequence, the financial support given to the paper was inadequate, even to maintain the standard first set up, much less to improve it.

This year it was felt by every member of the Editorial and Business Boards elected to carry on the paper, that it would be more than useless to continue the publication under the same conditions as formerly. Either the OUTLOOK must cease altogether, or there must be a radical change in the character of the paper—a change that would make it worthy of the student-body, which would make it dependent for its existence, not upon charity, but upon the continued interest of the students whom it represents.

To discontinue the paper and leave McGill in a position almost unique among Universities seemed a course too unworthy to be thought of.

The only alternative was to completely reconstruct the paper.

With this end in view, after careful study, an entirely new scheme has been entered upon.

 **The first number of the "OUTLOOK" will be delivered free to all Students. Subsequent issues will be sent to Subscribers only. Have your name put down at once and get the second number.**

Instead of four men, as formerly, the Editorial Board will consist of ten members; another member being elected from the Third Year of each Faculty.

It is intended that some of these members shall continue their office into their Third and perhaps Fourth Years (or both), gaining experience each year, thus doing away with the old custom of electing an entirely new Board every year.

The Business and Editorial Boards will moreover act together. The departments, such as Athletics, Football, Hockey, local news, news of Graduates, etc., etc., will receive attention from competent men, who know what they are discussing.

The paper will be issued earlier in the week than formerly. Coming events will be announced, and the results of Saturday's athletic contests will not have become too "stale" to be of interest to the students.

Exchanges will be made with all the leading Universities.

By this arrangement the readers of the OUTLOOK will be brought into touch with College life throughout the continent.

In short, everything that can possibly be done to make the OUTLOOK a thoroughly up-to-date College paper, it is the intention of the Editors and management to do.

This, then, is the plan for the coming year; but such a scheme, unless it have approval and active assistance of the students, will become valueless and impracticable.

Should the financial support extended by the members of the University be adequate the present Board will do their best to supply a magazine worthy of the Institution. But if the students take no interest in the paper, and will not subscribe to it, relying on reading any chance copy that they may find, then the publication may as well cease at once; the Board may as well disband immediately without suffering the ignominy of such a pro-

ceeding, after the first five or six numbers are issued.

Men of McGill it rests with you whether the OUTLOOK of 1902-03 shall be a success.

We appeal to you to aid us in our endeavour to raise the standard of the publication, to give the paper a fair chance, then, if it is found impossible to print a magazine of any interest, if from lack of time or lack of ability the Student Body of McGill is incapable of issuing such a paper, then let its death knell be sounded.

---

In another column will be found an account of a meeting held to organize an Association Football Club. This is a move which should meet with great success. There are a large number of Association players in the College, probably as many as there are at Rugby. There are also a large number of men who cannot play football well enough to get on the "squad," and who consequently are unable to enjoy the game at all. For all these, the Association Club will provide a very good means of exercise. With a little practice a very good team ought to be developed, and matches could be arranged with the various city teams (of which there are at least two or three), and perhaps one with 'Varsity. There has been a good deal of discontent among "Junior" footballers that the 3rd team was done away with this year. Considering that it is the only one of our three teams that has ever (within the memory of the present students) won a Canadian championship, it is rather hard to see why it was abolished. To restrict Rugby football to 40 men out of the whole University seems a pity. At Chicago, Harvard, Princeton, and other American Universities, it is not uncommon to have from 75 to 100 men on the squad. Of course, they do not all practice together, but instead of letting two teams monopolize all the time of the coaches, every

man on the squad is allowed to play for a limited time at the practices. The following clipping from the California "Daily" illustrates what is meant:—

"California has so many football candidates that the coaches are working them in two squads, one composed of veterans and upper classmen, which numbers 40, and practices early in the afternoon, and another which contains 70 Freshmen and keeps the coaches busy until dark."

## Athletics.

**Our Sporting Editor will accompany the Football Team to Toronto on Friday. For full account of the great match, and expert criticism on the players' see next issue of THE OUTLOOK.**

The Annual Sports' Day this year was one of the most interesting ever held. The year system introduced into the University last year received its final confirmation, and though the organization of the different years was not very complete, we think that Class instead of Faculty feeling is showing itself the best means toward the development of University spirit. The beautiful weather brought out a record-breaking crowd, especially of ladies, which goes to show the increased interest being taken in our College athletics. Of the sports themselves we need say nothing, except to congratulate the Freshmen on the splendid showing they made. Victory again rested with '04, but in all probability next year will see '06 make most of the running for the Inter-Class championship.

## FOOTBALL.

The prospects for a championship first XV. were at the beginning of the session, very bright. Nearly all of last year's team were again visible in the hot chase after the pignskin.

With an early season, an able captain and an energetic manager, to say nothing of the fine material at hand, things were certainly looking up. Preliminary practices held before the opening of College were slimly attended, but immediately after the formal opening and the subsequent return of the surveying party from Richmond, things were made to hum. With a first-class coach to look after the men and the play, everybody was optimistic; but the coach did not materialize, and the players have had to get along as best they could with the kind help and advice of one or two Undergraduates and of some Graduates, themselves old football men.

But the crucial time came, and when the McGill men were pitted against a poorer team individually, but a much better trained one collectively, the natural sequence followed, and a victory was scored against us. Any one who saw the magnificent brace taken by McGill in the last twelve minutes of play in the 'Varsity game cannot doubt but that with a little more head work in two cases, they would have turned an almost certain defeat into a brilliant victory.

But, although Queen's was not defeated on Saturday last, as was fondly hoped, yet we were not beaten, and there is still a good working chance for the chief honours in the C. I. R. F. U.

If enthusiasm were to count for anything in the winning of these championship honours McGill would certainly be right there at the finish, although much could be done without this enthusiasm, yet it is not everything, and before the "pennant" can be safely planted where we all want to see it, system on the team and in the team work *must* be developed.

Then, with every one knowing his place and his particular duty, the words of President Roosevelt in regard to football are not too well known to repeat here: "Don't shirk! Buck the line hard and play the game for all it is worth!"

### PRESBYTERIANS HELD DOWN FOR A TIE.

McGILL 6. QUEEN'S 6.

Last Saturday the Football team went to Kingston, with the game of the season on their hands. A defeat would mean practically that we were out of the running for the championship, while a victory—but we won't speculate!

It is hardly necessary at this late hour to state that the boys were not beaten, but could not, owing to darkness, change the draw into a victory.

A change from the team that played 'Varsity will be noticed. Patch replaced McDonald at full, and seems to have, at any rate, justified his position, by saving the game in the last fifteen seconds of play.

The day was very wet, and so were the grounds. With these settings, nothing very brilliant in the line of football could be attempted, and the game developed into an almost continuous hard close scrimmage with a few open plays by the halves.

The teams were as follows:—

McGill.	Queen's.
Patch.. . . .	Back.. . . . Simpson.
Hamilton.. . . .	Half-Back.. . . . Kearns.
Richards.. . . .	Half-Back.. . . . Britton.
H. Molson.. . . .	Half-Back.. . . . McDonald
Meindl.. . . .	Quarter.. . . . Dalton
McPhee.. . . .	Scrimmage.. . . . Reid.
O'Brien.. . . .	Scrimmage.. . . . Donovan.
Graham.. . . .	Scrimmage.. . . . Sheriff.
Nagle .. . . .	Wing.. . . . Young.
W. Molson.. . . .	Wing.. . . . Murphy.
Wright.. . . .	Wing.. . . . Ross.
Waterous.. . . .	Wing.. . . . J. Falkner.
Shillington.. . . .	Wing .. . . . McDonald.
Boulter.. . . .	Wing.. . . . Williams.
Martin.. . . .	Wing .. . . . W. Falkner.

Referee:—S. P. Biggs, Toronto.

Umpire:—Dr. McCollum, Toronto.

Time-Keeper:—Dr. Tait McKenzie.

### PUNTS.

Capt. Nagle played his usual steady game. He certainly merits the faith placed in him last year.

The Queen's men are a pretty rough aggregation, as far as the line is concerned. Some of the McGill wings may have been noticed going around in a pretty maimed state on Monday and Tuesday.

One of our city journals evidently thinks a lot of Boulter's prowess on the gridiron. He is undoubtedly an acquisition to the team, and we are glad to see him turning out again.

"Alfy Hamilton is making a name

for himself on the half line, this year. A good man at back, he is still better at half.

Meindl's forte seems to be "bucking." This is a good trait, but there is a time for all things and with such speedy halves as this year, he ought to try and "feed" them oftener.

"Stormy" O'Brien's experience and weight at centre scrimmage meant a good deal in such a game, as the Kingston one.

Nothing doing for the team till Nov. 8, when they play 'Varsity at home. Lots of time to get into first-class shape.

**Junior Freshman Match Postponed.**

The Junior Freshman Match scheduled for this afternoon is postponed. All candidates for position in the Class teams must undergo physical examination by Dr. Tait McKenzie, without delay.

**Hardest Game of the Season on Saturday.**

*Boys will go to Toronto in Special Train.*

A special train, carrying the Football Team and supporters, will leave for Toronto by the Grand Trunk on Friday evening. Return fare \$10.

This match with 'Varsity will be the critical match of the season. If the boys lose, we are out of the championship for good. Every man who can possibly spare the time should go with the Team and cheer them on to victory. For all particulars *re* excursion, see Mr. Reford, Med. '03, manager of the Football Team, or any member of the Team.

**FETCH OUT YOUR MEGAPHONES.**

**Every Student wanted on the Campus Saturday afternoon.**

On Saturday, at 3 p.m., the McGill II. team meets Lennoxville, in the first match of the Intermediate Series.

The team is in first-class condition, and is putting up a game that should land the Intermediate championship.

The only thing necessary to land the game with Lennoxville is proper support from the Bleachers. Let every man turn out and root for the College.

**NEW FOOTBALL CLUB.**

A meeting of all those interested in Association football was held in the Engineering building, on Monday afternoon, at 5. Over 50 students were

present, and great enthusiasm was shown in the organization of a club, to promote the same in the University.

The following officers were elected:

Hon. President—Professor McLeod.

President—Mr. M. Fyshe, Sci.

Vice-Pres.—M. McDiarmid Med.

Secretary—Mr. Richards, Med.

Treasurer—Mr. McGougan, Arts.

Committee for drawing up a Constitution, the above mentioned officers, together with Messrs. Archibald (Sci.), Boyle (Sci.), Ryan (Med.).

The Committee will proceed at once to make arrangements with the Grounds Committee for the use of Campus.

**'VARSITY VANQUISHED.**

FOURTH ANNUAL INTER-COLLEGIATE  
MEET A GREAT SUCCESS.

The fourth contest between the University of Toronto Track Team and the McGill Track Team were held in Toronto, on the afternoon of Thanksgiving Day, and for the fourth time resulted in a victory for McGill this year, with a score of 61 to 47.

The events took place on the 'Varsity Grounds, and were well attended.

The two teams had eagerly looked forward to victory; Toronto recognized McGill's strength in the weight events and in the runs; McGill foresaw worthy opponents in the sprints and in the jumps.

A number of records were broken.

There were many surprises: Toronto expected to win the 880, the Long Jump and the team race, and were disappointed. The McGill team were confident of winning the Mile and the Shot put, but had to be content with second places.

Speaking, generally, the games were never better contested—if we exclude the Hurdles and the Pole Vault, in which 'Varsity and McGill respectively had all their own way. Yet these two events were stubbornly fought for by the individuals in question.

A number of records were broken: Ryan, of McGill, added nearly 5 inches to the Long Jump. Fraser, of McGill, threw the Hammer more than 11 feet beyond the best of former years. Henderson, of Toronto, ran a splendid race in the Mile, and clipped over 6 secs. off the old record. Gray, of Toronto, increased the Shot record by  $3\frac{3}{4}$  inches, and Ford, now of Toronto, but formerly of McGill, ran the hurdles in 17 2-5 secs., reducing the record from 18 secs. In addition to the above the records for the 100 and 220 yards were equalled, so that out of twelve events, seven were "best on record."

The following is a list of the events:—

100 yards, Morrow (M.) First; Worthington (T.), Second; Ferguson (T.), Third; Time 10 2-5 secs.

880 yards. Morrow (M.), First; Warren (T.), Second; Teasdale (T.), Third; Time 2 min., 8 secs.

Long Jump. Ryan (M.), First; Worthington (T.), Second; Kent (M.), Third 20 ft.;  $10\frac{1}{4}$  inches.

Pole Vault. \*Kent (M.), First; Dalgliesh (M.), Second; McMurray (T.), Third; 9 ft., 4 inches.

16-lb. Hammer. Fraser (M.), First; Ogilvie (M.), Second; McIntosh (M.), Third; 105 ft., 7 inches.

220 Yards. Gurney (T.), First; Ferguson (T.), Second; Gibson (M.), Third; Time, 22 4-5.

One Mile. Shepherd (T.), First; Stovel (M.), Second; Gray (M.), Third; 4 min., 39 3-5 secs.

16-lb. Shot. Gray (T.), First; Ogilvie (M.), Second; Fraser (M.), Third; 35 ft.,  $3\frac{3}{4}$  inches.

High Jump. Dalgliesh (M.), First; ‡Edwards (T.) and Waugh (M.), Seconds.

440 Yards. Morrow (M.), First; Gurney (T.), Second; Gibson (M.), Third; Time, 52 secs.

120 yds. Hurdles. Ford (T.), First; Biggs (T.), Second; Worthington (T.), Third; Time, 17 2-5 secs.

Discus. Ogilvie (M.), First; Worth-

ington (T.), Second; McIntosh (M.), Third.

Team Race. Won by McCuaig, Brown, Gibson and Morrow, McGill.

\*Dalgliesh and Kent tied for first place. Kent won the toss for medal.

‡Edwards and Waugh tied for second place, points divided. Edwards won toss for medal.

#### CROSS-COUNTRY RUN.

Last year a new step was taken in Athletics. This was the establishment of a cross-country run, the length of the course being about six or seven miles. Starting from the Westmount Golf Links a "détour" was taken over the mountains, the finish being on the Campus.

As yet, nothing has been decided about this year's course. It will probably be the same length as last year's, and the only feasible place for the run seems to be over the mountain.

Those desiring to enter can do so by giving their names and twenty-five cents to the secretary of the Athletic Association before November first, when the run will be held. Many valuable prizes will be given, and the more entries received the more prizes there will be. Unusual interest is manifested in the run this year, and the probabilities point to a keen contest.

This event proved so popular last year that it is now a regular thing, and the winner is entitled to wear the large McGill M.

#### TRAINING TABLE.

An innovation which was an improvement in Athletics this year was that instituted by the energetic officers of the Association, namely, the training table at the Presbyterian College. The fare has been first-class, and, of course, just what was needed. Fifteen members of the track team sat down here, while training for the sports, and the affair was altogether an unqualified success.

**BASKET BALL.****THREE TEAMS ORGANIZED BY CO-EDS.**

Basket ball at the Royal Victoria College has begun under somewhat more unfavourable auspices than last year, and it is to be hoped that the enthusiasm of the girls will last until they have accomplished something. For the first time there have been large enough numbers at the practices to make them seem really worth while. Three teams have been organized, besides the College team: a Freshman team, a Sophomore team and a Senior team; the latter representing the Third and Fourth Years. The Freshmen have elected Miss E. J. Taylor as their Captain. Miss Mazie Pearson is Captain of the Sophomore team. Miss Gertrude Griffin has been elected manager of the Basket ball and Captain of the College team.

**TENNIS AT THE R. V. C.****MISS SHARPE AND MISS NEWMAN WIN THE DOUBLES. MISS SHARPE THE SINGLES.**

A very successful Tournament was held on the R. V. C. courts, on Saturday, October 4. In spite of the President's assurance that the Tournament was not for "star" players, many excellent sets were played. The finals of the Doubles were played off by Miss Sharpe and Miss Newman versus Miss Holway and Miss Tully, resulting in a victory for the former. Miss Sharpe was also victorious in the final Singles, which she played against Miss Holway.

Miss Oakeley and Miss Dover kindly consented to act as umpires, and were assisted by Miss Freize and Miss Gilmour. During the Tournament tea was served on the lawn.

**About the College****McGILL HISTORICAL CLUB.**

The first meeting of this Society met on Thursday evening, Oct. 9, in

the Y. M. C. A. The President and Treasurer elected last year had resigned and the first business was to elect officers to fill their places. Mr. Couture and Mr. Papineau were chosen. Mr. Parkins gave notice of motion to amend the constitution to admit students of the R. V. C.

The programme was then proceeded with. Mr. J. Dewitt sent a very comprehensive essay on the Incas of Peru, which was read by Mr. Munn, and which traced their civilization from barbarity to their later excellence in agriculture and military affairs. Mr. Johnson then presented a very interesting paper on "Mounds and their Builders." He took up first their general characteristics showing them to be a race warlike, energetic, having social and perhaps religious feeling. He then spoke of their habits and passed around several interesting illustrations, showing his points. After an animated discussion the meeting adjourned for refreshments.

**Y. M. C. A.****Tea on Tap.**

The Annual Thanksgiving Tea, which was held this year in the City Association building, was the most largely attended, and in every way the greatest success yet. One hundred and sixty men sat down to tea. The toasts of the evening were: The King, The McGill Y. M. C. A., Our Benefactors, Athletics, The City Association, Our New Department and the Ladies.

Mr. Tory, in speaking to "Our Benefactors," referred to the great service done to the University by the men who were the benefactors of the Y. M. C. A. The names of Sir William Dawson, who for many years was Honorary President of the Association, and all his lifetime was its staunch friend; Mr. George Hague, whose generosity made the present building possible, and of Dr. Alexander Johnson our Hon. President, were mentioned in connection with this toast.

The reference to the men who will give the money necessary for the new building was greeted with applause. Mr. Geo. Turner presided and introduced C. T. Williams, Esq., who acted as toast master.

Sunday afternoon, Oct. 26, Principal Rexford will deliver an address in the Redpath Museum, at three o'clock, on the book of Proverbs.

The Saturday Evening "At Homes" in the Association building will be continued. All McGill men are invited.

---

#### Y. W. C. A.

Our Association has started out this year under very favourable auspices and with renewed enthusiasm on the part of its members. The first meeting was in the form of a tea, when the Society took the opportunity of welcoming all the new girls to the College and the old girls back again. The common room was very prettily and effectively decorated with a profusion of plants, flowers, autumn leaves and berries. An unusually large number were present, and a very pleasant social hour was spent, after which the President, Miss Gass, gave a few brief but appropriate words of welcome to the girls, and extended a cordial invitation to all to attend the regular meetings of the Society. She then called upon Miss Oakeley, who gave a splendid and stirring address to the girls, impressing upon them the duties and ideals of College life among women.

The next week the first regular meeting was held, at which the President gave an enthusiastic address on the hopes and aims of the Society and its special place in College life. Last week the meeting was addressed by Miss Wilson, '04, on the benefits derived from the Bible study classes.

#### Delta Sigma.

These are the days when the future of the Delta Sigma Society is brighter than it will be at any other moment that may be specified during the year of 1902-1903. Oh for a world in which the beginnings of things would last forever, or at least till the end were in sight! Nevertheless, Delta Sigma does not mean to fall behind any other organization of the R. V. C. in vitality and usefulness, even when that doleful time, the middle of the term, casts its blight on our fair young energies.

This report is not to give detailed programmes of our meetings. The members know what happened, and others would not be interested. It is merely to announce to all who are concerned, that we are continuing business at the same old stand, and do not crave the patronage of any. Our purpose is not to be supported, but to support, and, if we ever find that we are not needed, and, therefore, not wanted, let us earnestly pray for presence of common sense enough to vanish. Far distant be the day!

P.S.—We are not a Greek fraternity. We are a literary society. This is positively the last time of announcement.

---

#### COLLEGE NOTICES.

Professor Rutherford will deliver, in the Physics building, an advanced course of lectures, illustrated by experiment, of two hours per week, on: "Radioactive Bodies and their Radiation."

All members of the University interested in the subject are invited to attend.

Sir Sandford Fleming, K.C.M.G., Chancellor of Queen's University, has provided the sum of \$250, to be awarded as a prize or prizes, for the best essay on the following subject:

"How can Canadian Universities best benefit the cause of Journalism as a means of modifying and elevating public opinion in the Dominion?"

Essays are to be in by Dec. 1. The following gentlemen have consented to act as judges:—The donor, a representative nominated by the Canadian Press Association and the Principals of McGill, Queen's and University College.

Hereafter McGill sweaters, running jerseys and trousers, and the University crest, in accordance with registered design, will be sold only on order (to be obtained at the Secretary's office), by the following firms:

Messrs. H. Morgan & Co., Phillips square.

Mr. John Allan, 2299 St Catherine street.

C. H. McLEOD,

Sec. to G. and A. Committee.

At a meeting of the Four Years of Medicine, on October 1, 1902, notice was given of the following motion, to be brought up for discussion at the proper date:—Students taking the double course in Arts and Medicine shall, in the Third and Fourth Years of their course, become members of this Association, on payment of their fees to the Arts' Undergraduates Society. At the beginning of the Fifth Year of their course such students must pay their annual fee to this Association if they wish to retain their membership.

J. E. GILLIS,

Secretary.

The Students Gymnasium class in the City Y. M. C. A. meets every week on Wednesdays, at 5.15, and Saturday at 5. Mr. Merritt, who graduated at the head of his class in the Springfield Training School, is in charge of the Gymnasium.

## Class Reports.

R. V. C.

1903.

The twenty-third of September '03 reassembled for the Session's work. Only one member failed to reappear, and she has graduated from student life, followed by the mingled regrets and best wishes of her Classmates.

The election of Class officers resulted as follows:—

President—Miss Parkin.

Vice-President—Miss Belyea.

Secretary-Treasurer—Miss East.

Representative to OUTLOOK Board—Miss Griffin.

The members of '03 have entered on the duties and pleasures of the College year with their usual energy and spirit. Three Class Meetings, at each of which a large amount of business was transacted, testify to their enterprise. A social event of interest was the tea to the Freshmen, when the Seniors gave themselves an opportunity to begin their acquaintance with the promising Class of '06.

1904.

The Donaldas of Arts '04 are very glad once more to have an opportunity of contributing their humble share to the pages of the MCGILL OUTLOOK. They had heard that there was to be no OUTLOOK this year, and now that the rumour has proved false they wish to express their appreciation of the energetic efforts of those who have revived the paper and the flagging enthusiasm of the students. They wish both the Editorial and the Business Boards all possible success.

We are proud this year of still holding our position as the largest and strongest class of Donaldas that has ever entered Old McGill's classic halls. With great pleasure we welcome among us Miss Hadrill, who was one of '03's most honoured members, until illness (surely a blessing in dis-

guise) gave her an opportunity to join '04; also Miss Ellison, formerly of the illustrious Class of '02. We feel that we are to be congratulated on our new members as much as they are to be congratulated on their exceptional good fortune.

Proudly, and with flying colours, have we passed through our Sophomoredom, and are now safely and auspiciously, but with all due modesty, launched upon our Junior Year under a staff of very energetic officers.

President—Miss M. A. Draper.

Vice-President—Miss M. Hadrill.

Secretary-Treasurer—Miss E. P. Simpson.

Reporter—Miss G. L. Griffin.

We have also appointed the following representatives to the various boards:—

Business Board of the OUTLOOK—Miss M. K. McCally.

Editorial Board of '04 Annual—Miss A. L. Macleod, Miss A. D. Dickson.

Business Board of '04 Annual—Miss M. A. Draper, Miss G. L. Griffin.

N.B.—One of the most important features this year is to be the '04 Annual.

*Every* Donalda should have a copy, and will those who have already subscribed, and those who wish to, kindly pay their advance partial subscription to the representatives on the Business Board, at their earliest possible convenience.

1905.

The officers of our Year are as follows:—

President—Miss Sharp.

Vice-President—Miss Moule.

Secretary—Miss Hill.

We are pleased to note that few of our Class have dropped out, while a recruit from Stanstead has joined our ranks.

A very pleasant afternoon was spent not long ago in the Common Room, when the Sophomores entertained their young friends of the First Year. Games, suitable to the age of the

guests, were indulged in, of which "Musical Chairs" seemed to be the favourite, although "London Bridge" almost brought down the house.

After a light tea had been served, the Freshies listened to an address given by the most eloquent of Sophomores, who informed them of the duties and privileges they were now entering upon. Those addressed seemed to realize the solemnity of the occasion, and it was with very serious demeanour that they lined up to be installed by our President as students of the Royal Victoria College.

1906.

The election of officers for the First Year, resulted as follows:—

President—Miss Carter.

Vice-President—Miss Gilmor.

Sec.-Treasurer—Miss Blakemore.

Reporter—Miss Tully.

Athletic Representative—Miss Massey.

The '06 Class is a large and energetic and, headed by such a capable person as Miss Carter, ought to accomplish great things.

Great appreciation is felt by the newcomers at the manner in which the older classes have welcomed them. There have been three delightful teas and in these, as in many other ways, the true College spirit of unity has been evinced.

Too much thanks cannot be expressed for such kindness and hospitality.

#### SOPHOMORE TEA.

One of the most interesting and enjoyable events for the '06 Undergraduates was the initiative tea given to them by the Sophomores. It was replete with original and amusing entertainments, such as "Musical Chairs," "London Bridge," etc., etc.

For a while, indeed, the Freshies, unaccustomed to such grave and classical surroundings and companions, missed the tender care of their nurses very much; but the

Sophomores handled the ~~ex~~-nursery people so carefully and creditably, that it was not long before the children were merrily indulging in their innocent sports. After games the Sophomores gently placed their young guests on huge cushioned chairs and, securely fastening their bibs around their necks, sat them down to a most delicious repast. Some of the children, indeed, had to be severely handled, and two of the most prominent officers were observed standing in the corners with repentant, tear-stained faces, while they eagerly clamoured for more pink cake! The Sophomores were provided toys, which the Freshies drew from a huge sawdust pie. After this the Freshmen were entertained by the most wonderful arrangement imaginable, which discoursed familiar nursery rhymes—without any visible means of production.

Then came the "crowning" feature of the day—the crucial point. The Freshies were drawn up before the Sophomore President, and, one by one had placed on their heads a green trencher while these awful and impressive words were spoken:—

"Depart ye now from childish ways  
And tread the paths of wisdom."

The magnetic touch of the cap as it was placed on each respective head sent a thrill of superiority through the Freshies' innermost bones.

As the First Year girls, headed by their President, walked out between a double row of learned Sophomores, the grave look on their faces showed that they had taken every detail to heart.

It was observed, though, that these "grave and learned" Sophomores looked on with envious eyes; and suspicion was aroused that beneath this serious exterior lurked a secret desire to participate in their so-called childish games.

Miss Taber's kind advices were eagerly drunk in, and the Freshmen listened in amazement to the tales of

daring and hairbreadth escapes which the Class of '05 had undergone.

## ARTS.

1903.

For the fourth and last time the finest class in Old McGill has returned to the classic halls to once more serve as a high and proper example to be followed by all who would be what they ought. Some of us are already beginning to feel a deep and unselfish sorrow and apprehension as to what will befall the University when the time comes for us to don the sought-for hood. Special arrangements are being attempted, however, to have some of us remain in the Faculties and so keep a good leaven working for a few years longer, so don't let the Governors feel too uneasy. The situation may yet be saved.

Soon after College opened our first Class Meeting was held. A large and enthusiastic crowd gathered. Good enough order prevailed until the moment came for the election of officers, when something very peculiar happened. A mania seemed to settle upon each individual to reject all offices which might be offered to him. One by one, as nominations were made, nominees rose to say that they could not accept that particular position. If pressed for a reason they must reply that they had already too much work to do. Listen to that, you who say that men come to College to have a good time! Needless to say, we expect great things of these men, who, as honour students, claim among their other exemptions that of freedom from office.

After some trouble, a few public-spirited citizens were found patriotic enough to take upon them a magnificent regalia and responsibility of office. Here they are:—

President—T. S. McMorran.

Vice-President—Wm. L. Holman.

Secretary—Alan Dale Harris.

Treasurer—Dakers Cameron.

We challenge the Faculty of Arts to produce better men.

We have already secured the services of one of the greatest poets of our time for this column. He is chiefly noted for his seriousness of purpose and breadth of aim. He does not wish to have his name disclosed (perhaps a wise step), but we are free to say that he is being paid 25 cents a word—the recognized tariff for genius. Here is his first contribution:—

There was a young man named D-nl-p,  
Who once met a poor drunken sop,  
Said he: "Stop your drinkin'  
Or else I'll be thinkin'  
Of handling you on to a cop."

1904.

Now, the Knights of the Order of Nawtfors, such of them as had escaped alive from the battle in the spring, came back to their castle. And when they had met together and mourned for the slain, and told the tale of the wounded, and of those travelling in foreign lands, it seemed good to them to choose for their chief the good knight Sir McGougan, who dwelt among the holy monks of St. Theolog, and under him Sir Talbot de Papineau, a worthy knight of his hands; and to keep their archives chose they Sir George de Shanks, and to watch over their gold, Sir Mac de Kenzie, and for scribe—him whom the vulgar call reporter—Sir Herbert de la Rose, who now writeth this true and faithful chronicle. And after this they sent a messenger, a knight exceeding glib of tongue, to instruct the So Fomores as to the best method of doing battle with the Phreshmen. Now the Phreshmen were parlous good knights of their hands, and, therefore, when the So Fomores joined battle with them they were not able to overcome them, but many deeds of derring do more wrought on both sides until men let cease the warfare, and peace was made, and the pieces of the raiment of the warriors joined together with pins. And the Nawtfors

looked on, and said: "Lo! this is even as in the days of old, when the Nawtfors and the Nawtfours withstood us for a little while, ere we threw them from the top of the stairs even unto the bottom thereof."

And one of them, feeling billious, hied him home, and wrote sad verses, in this wise:—

ELEGY ON MR. C-M-B-L'S M-S-T-CHE.

'Tis autumn; falling leaves bring sad-  
der days  
And my sad thoughts a starting tear  
betrays.  
The boughs are bare, and dreary is  
the lea,  
Dreary my mind is, when I think of  
thee.  
By barber's hands the forfex on thee  
closed,  
By barbers were thy falling hairs com-  
posed.  
A barber's hands the lather on thee  
spread,  
By barbers was the razor 'gainst thee  
led.  
Now thou art gone, thy place, alas!  
is bare,  
But ah! thy memory is the poet's care,  
Fear not, unhappy hirsuteners, that I  
Will in oblivion let thy virtues lie.

1905.

The Class of '05 held its Annual Meeting in September, in one of the Arts' parlours. The main business for the first half-hour consisted of yelling, singing and cheers.

After these preliminary demonstrations had subsided the meeting was called to order by the President. The minutes of the preceding year were read amidst great enthusiasm. It was then decided that although the officers of the last preceding year had performed their duties with considerable skill and wisdom, a change should be instituted and others given a chance.

They were then discharged and substitutes appointed as follows:—

President—W. F. I. Dey.

Vice-President—W. W. Robinson.

Secretary—C. S. Tupper.

Treasurer—C. H. S. Blanchard.

The next business was the consideration of a lamentable debt, incurred by the extravagant expenditure of plunks on . . . last year.

It was resolved that in so far as this item of \$. . .00 could not be conveniently disposed of by talking, the amount should be paid and the wherewithal levied from the Class. This was carried amidst groans.

A deputation from the Senior and Junior Years then presented a plea for the perpetuation of the traditional Sophomore-Freshmen rush, which was threatened with discontinuance, owing to financial complications that it involved.

To avoid this disagreeable feature it was resolved to hold it outside. The proposition was carried and the time fixed for 10 a.m. on the following morning.

It came duly off, starting at 9.59 a.m.

The Freshmen who were huddled together around the Molson Hall entrance were all seized by the Sophomores and slung down an embankment that lay between there and Sherbrooke St.

They left a few trinkets behind, however, consisting of fragments of shirts, collar buttons, pants buttons, etc.

We went to the theatre some night last week. The costumes were beautiful; some costumes didn't have much of it.

Very few Sophomores competed in the games this year.

Will the Freshmen who persist in singing that vulgar song: "Dooley-ooo-ooo, kindly Doo it not more.

Many be the youths take Honour Philosophy. I wonder why be it.

A few freak Freshmen smelling around the English lecture room door the other day were seized by somebody who didn't do a thing to them.

1906.

On Saturday morning, October the fifth, about nine men turned out to up-

hold the Freshmen Arts against all comers, on the gridiron. The necessary number of High School players was lent, and the game went on. Although Capt. Sutherland played five men's game, the score was ten to four when we quit. A match between the "Old Boys" and the High is arranged for this Monday afternoon. By the way, when are those much-talked-of Inter-Class matches coming off?

A. Ross has a fine exhibition of carved wood on view in Prof. Lafleur's room.

## SCIENCE.

1903.

Although the Class officers were elected some time ago the outside world should know that they were well chosen, as follows:—

President—J. F. McDonald.

Vice-President—Chas. Rowland.

Secretary—J. H. Stovel.

Reading Room Committee—H. W. Jones, Geo. Kendall.

McGill University Magazine—W. H. Thorp.

Alma Mater—G. Percy Cole.

We were well represented at the training table, and, judging from the way the boys were "dicted," they wouldn't mind going in training again.

Edwards, Gale, Boright, Hall, Stovel and Cumming upheld '03 at the Sports and deserve credit for the good showing they made.

Wasn't that a grand stand finish of Stormy's?

It is rumoured that Oliver passes the R. V. C. on the other side of the street now; and the mention of football captain makes him tear his hair.

The Theory of Structures and Mathematics exhibition was won by Foreman, with Hall a good second; the former handing in the best Mathematics paper received for years.

Scientist—Have you seen the eclipse?

Artist—No, I was out of town.

Why is P. A. L's moustache like the comet?

Because it can now be seen with the naked eye.

We all join in a hearty welcome to the Archangel, an eminent astronomer.

His manipulation of the Zenith Telescope and transit with the cover on the roof closed was beautiful to behold.

1905.

At a meeting of this Class held early in the session, officers for 1902-3 were elected.

President—E. W. Bowness.

Vice-President—H. H. Pinch.

Secretary-Treasurer—F. C. Jewett.

G. A. Johnston was chosen to be Class Reporter.

At subsequent meetings G. W. Ross was elected to fill the position of R. R. R., and Donald McLean to be a member of the Editorial Board of the OUTLOOK.

The usual "Rush" came off early in the second week of lecture and was a swift affair. As it was witnessed by nearly all of the readers of the OUTLOOK, a detailed account is unnecessary.

The writer wishes to say, however, that a Science Freshman, who had absolutely no signs of mother earth on him, was observed a few days ago on the Campus. The general opinion seems to be that the present Freshman Class should confine its attention to yelling, as it lacks the "sand" necessary for sturdier amusements.

(-ds-rd-, gesticulating wildly to his rodman)—"Wave equally in both directions! I get a different height every time."

"Fat, fair and false—eh, 'Livy'?"

Now that the organ grinders and Freshmen have learned "In the good old summer time," it is up to self-respecting Sophomores to drop it.

It was experimentally proved at Melbourne, that C - -rc - - l has an appetite equal to  $\pi \times \infty$

In the Physics building, at 2 p.m., Friday—"Please Sir, I am a *Civil Engineer*."

1906.

After the usual routine of fees, rushes, meetings, etc., we, the Class of Science '06, have at last settled down to work, and, in the meantime, have come to know each other fairly well.

The election of officers was the first necessity; the following is the result:

President—T. R. Davidson.

Vice-President—H. A. Grier.

Sec.-Treasurer—R. Rolland.

Reporter—M. L. Hibbard.

Rep. to Applied Science Soc.—E. M. Bennedict.

Reading Room Rep.—G. Blackader.

At the same meeting ways and means of defeating the Sophomores in the rush were discussed. Several novel suggestions were submitted, one of which was the fixing of a postage stamp on the forehead, as a means of distinguishing the brothers of '06 from their adversaries, the Sophomores, in the excitement of battle. Being somewhat impracticable, this was not adopted.

As all the world knows we "put it all over" the members of '05 in the Annual Class scrap; it was all our officers could do to draw their men off from the vanquished and demoralized Sophomores. Nevertheless, we take our victory coolly and do very little boasting.

**MEDICINE.**

1903.

The Third Year is most assuredly to be congratulated on her choice of officers, that is, of course, with the exception of the last named: President, W. W. Chipman; Vice-President, A. C. Rankin; Secretary, J. C. Martin; Treasurer, J. Graham, and the Reporter, unnameable.

[In view of the manifold risks the "unnameable" runs during the course of a year; it has been deemed best to keep his person a Class secret.]

W. W. Chipman fractured his right clavicle at football recently. This is hard luck in more ways than one, and we sympathize with him most sincerely.

W. E. Ainley, more commonly known as the Alaska Sable, has attained to the highest honour his Class-mates could confer on him: He has been chosen to represent us on the Business Board of the OUTLOOK.

The following would look well on the coat of arms of the Fourth Year. It is classic:

"God grant us Patience."

*Omni Jupiter vult perdere, prius dementat.*

(Thomas, 4th Year Medicine.)

Hair-lip is epidemic amongst us, Vanity! Vanity! All is vanity!

The fatherly interest taken in us by the powers that be was clearly shewn lately, when we were relieved of the necessity of being in more than one place at one and the same moment. Even the elements of Physics are not without use, apparently.

"Oleo," while reading the Beaux' Stratagem recently, came across the following, which he immediately adopted as his own special motto: "I believe they talked of me, for they laughed consumedly."

**RUSH QUESTIONS.**

(Apologies to Punch.)

Who writes a challenge on the slate,  
Replete with threat to elevate  
The Third Year entering their gate?  
The Fourth Year!

Who rushes through the "lower door,"  
And hurls the Fourth Year on the floor,  
Renewing a forgotten score?  
The Third Year!

Who flies before this dauntless rush,  
And falls quite flattened in the crush?  
Who try to hide their rueful blush?  
The Fourth Year!

Who flies before the noisy gust,  
Wafted away through chemic dust,  
Hoping that none their bones will  
burst?  
The Lecturer!

Who thinks that it is scarcely fair  
To have to pay for room repair,  
With that exemplary Fourth Year  
there?  
The Registrar!

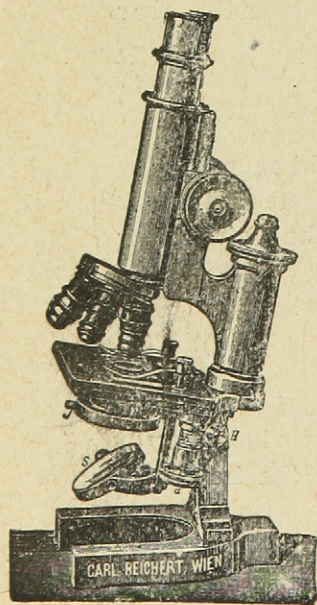

Who are they that should moral draw  
And learn next time to shut their maw  
While smarting 'neath the Third Year  
claw?  
The Fourth Year!

And who the men that got their way,  
Who won in this most glorious fray?  
Hark! Fourth Year how the impartial  
say:  
"The Third Year."

## Weekly Calendar.

Thurs. Oct. 23	—3 p. m.,	Bible Class, 1st Year Arts, Y. M. C. A., Sherbrooke St.
	5 "	Physical Society, Physics building, Professor Cox, on "Liquid Air Plant at McGill.
